Forensic Science International

Subject index

Volume 93 (1998)

Abuse; Propane inhalation, Headspace gas chromatography **93**, 1

Age distribution; SIDS, Sleeping position, Infection, Place of death **93**, 155

Alcohol; Alcoholism, Biological markers, Blood, Drunk drivers, Forensic science, 5HTOL, Toxicology, Urine, Urine/blood ratio **93**, 127

Alcoholism; Alcohol, Biological markers, Blood, Drunk drivers, Forensic science, 5HTOL, Toxicology, Urine, Urine/blood ratio **93**, 127

Allergy; Tryptase, Mast cell, Anaphylaxis **93**, 135

Amphetamine; Impurities, Extraction, Comparison, Profiling, Classification **93**, 99

Anaphylaxis; Tryptase, Mast cell, Allergy **93**, 135

Asphyxia; Strangulation, Pressure on the neck, Larynx **93**, 13

Band shift analysis; Short tandem repeat, D12S391, Intermediate alleles **93**, 79

Beveling; Forensic anthropology, Bone, Gunshot wounds, Entry wounds **93**, 45

Biological markers; Alcohol, Alcoholism, Blood, Drunk drivers, Forensic science, 5HTOL, Toxicology, Urine, Urine/blood ratio **93**, 127

Blood; Alcohol, Alcoholism, Biological markers, Drunk drivers, Forensic science, 5HTOL, Toxicology, Urine, Urine/blood ratio **93**, 127

Bone; Forensic anthropology, Gunshot wounds, Entry wounds, Beveling **93**, 45

Classification; Amphetamine, Impurities, Extraction, Comparison, Profiling **93**, 99

Comparison; Amphetamine, Impurities, Extraction, Profiling, Classification **93**, 99

Conduction system pathology; SIDS **93**, 143

Criminalistics; Glass, Transfer **93**, 201

Criminalistics; Glass, Windows, Transfer **93**, 167

Criminalistics; Glass, Windows, Transfer **93**, 175

Criminalistics; Glass, Window, Transfer **93**, 195

Criminalistics; Glass, Windscreens, Fragmentation **93**, 209

D12S391; Short tandem repeat, Band shift analysis, Intermediate alleles **93**, 79

Diagnosis per exclusionem; Lethal hypoglycaemia, Exogenic hyperinsulinism, Postmortem biochemistry, Pathomorphological findings **93**, 61

Dietary influence; Infant mortality, Sudden death, Ischemic heart disease **93**, 117

Drowning diagnosis; Forensic medicine methods, Fluorescence spectrometry, High-performance liquid chromatography, Fluorescein sodium **93**, 5

Drunk drivers; Alcohol, Alcoholism, Biological markers, Blood, Forensic science, 5HTOL, Toxicology, Urine, Urine/blood ratio **93**, 127

Entry wounds; Forensic anthropology, Bone, Gunshot wounds, Beveling **93**, 45

Epidemiology; Forensic science, Homicide, Suicide, Forensic medicine, Sharp force injuries, Univariate statistical comparison **93**, 21

Exogenic hyperinsulinism; Lethal hypoglycaemia, Postmortem biochemistry, Pathomorphological findings, Diagnosis per exclusionem **93**, 61

Extraction; Amphetamine, Impurities, Comparison, Profiling, Classification **93**, 99

Fluorescein sodium; Forensic medicine methods, Drowning diagnosis, Fluorescence spectrometry, High-performance liquid chromatography **93**, 5

Fluorescence spectrometry; Forensic medicine methods, Drowning diagnosis, High-performance liquid chromatography, Fluorescein sodium **93**, 5

Forensic anthropology; Bone, Gunshot wounds, Entry wounds, Beveling **93**, 45

Forensic medicine; Forensic science, Homicide, Suicide, Epidemiology, Sharp force injuries, Univariate statistical comparison **93**, 21

Forensic medicine methods; Drowning diagnosis, Fluorescence spectrometry, High-performance liquid chromatography, Fluorescein sodium **93**, 5

Forensic pathology; Natural death, Unexplained death, Medico-legal autopsy **93**, 89

Forensic science; Alcohol, Alcoholism, Biological markers, Blood, Drunk drivers, 5HTOL, Toxicology, Urine, Urine/blood ratio **93**, 127

Forensic science; Homicide, Suicide, Epidemiology, Forensic medicine, Sharp force injuries, Univariate statistical comparison **93**, 21

Fragmentation; Criminalistics, Glass, Windscreens **93**, 209

Glass; Criminalistics, Transfer **93**, 201

Glass; Criminalistics, Window, Transfer **93**, 195

Glass; Criminalistics, Windows, Transfer **93**, 175

Glass; Criminalistics, Windows, Transfer **93**, 167

Glass; Criminalistics, Windscreens, Fragmentation **93**, 209

Gunshot wounds; Forensic anthropology, Bone, Entry wounds, Beveling **93**, 45

Headspace gas chromatography; Propane inhalation, Abuse **93**, 1

Height of fall; Necropsies, Injury severity, Statistical modelling **93**, 33

High-performance liquid chromatography; Forensic medicine methods, Drowning diagnosis, Fluorescence spectrometry, Fluorescein sodium **93**, 5

Homicide; Forensic science, Suicide, Epidemiology, Forensic medicine, Sharp force injuries, Univariate statistical comparison **93**, 21

5HTOL; Alcohol, Alcoholism, Biological markers, Blood, Drunk drivers, Forensic science, Toxicology, Urine, Urine/blood ratio **93**, 127

Impurities; Amphetamine, Extraction, Comparison, Profiling, Classification **93**, 99

Infant mortality; Sudden death, Ischemic heart disease, Dietary influence **93**, 117

Infection; SIDS, Age distribution, Sleeping position, Place of death **93**, 155

Injury severity; Height of fall, Necropsies, Statistical modelling **93**, 33

Intermediate alleles; Short tandem repeat, D12S391, Band shift analysis **93**, 79

Ischemic heart disease; Infant mortality, Sudden death, Dietary influence **93**, 117

Larynx; Strangulation, Pressure on the neck, Asphyxia **93**, 13

Lethal hypoglycaemia; Exogenic hyperinsulinism, Postmortem biochemistry, Pathomorphological findings, Diagnosis per exclusionem **93**, 61

Mast cell; Tryptase, Anaphylaxis, Allergy **93**, 135

Medico-legal autopsy; Natural death, Unexplained death, Forensic pathology **93**, 89

Natural death; Unexplained death, Medico-legal autopsy, Forensic pathology **93**, 89

Necropsies; Height of fall, Injury severity, Statistical modelling **93**, 33

Pathomorphological findings; Lethal hypoglycaemia, Exogenic hyperinsulinism, Postmortem biochemistry, Diagnosis per exclusionem **93**, 61

Place of death; SIDS, Age distribution, Sleeping position, Infection **93**, 155

Postmortem biochemistry; Lethal hypoglycaemia, Exogenic hyperinsulinism, Pathomorphological findings, Diagnosis per exclusionem **93**, 61

Pressure on the neck; Strangulation, Asphyxia, Larynx **93**, 13

Profiling; Amphetamine, Impurities, Extraction, Comparison, Classification **93**, 99

Propane inhalation; Abuse, Headspace gas chromatography **93**, 1

Sharp force injuries; Forensic science, Homicide, Suicide, Epidemiology, Forensic medicine, Univariate statistical comparison **93**, 21

Short tandem repeat; D12S391, Band shift analysis, Intermediate alleles **93**, 79

SIDS; Age distribution, Sleeping position, Infection, Place of death **93**, 155

SIDS; Conduction system pathology **93**, 143

Sleeping position; SIDS, Age distribution, Infection, Place of death **93**, 155

Statistical modelling; Height of fall, Necropsies, Injury severity **93**, 33

Strangulation; Pressure on the neck, Asphyxia, Larynx **93**, 13

Sudden death; Infant mortality, Ischemic heart disease, Dietary influence **93**, 117

Suicide; Forensic science, Homicide, Epidemiology, Forensic medicine, Sharp force injuries, Univariate statistical comparison **93**, 21

Toxicology; Alcohol, Alcoholism, Biological markers, Blood, Drunk drivers, Forensic science, 5HTOL, Urine, Urine/blood ratio **93**, 127

Transfer; Criminalistics, Glass **93**, 201

Transfer; Criminalistics, Glass, Window **93**, 195

Transfer; Criminalistics, Glass, Windows **93**, 175

Transfer; Criminalistics, Glass, Windows **93**, 167

Tryptase; Mast cell, Anaphylaxis, Allergy **93**, 135

Unexplained death; Natural death, Medico-legal autopsy, Forensic pathology **93**, 89

Univariate statistical comparison; Forensic science, Homicide, Suicide, Epidemiology, Forensic medicine, Sharp force injuries **93**, 21

Urine; Alcohol, Alcoholism, Biological markers, Blood, Drunk drivers, Forensic science, 5HTOL, Toxicology, Urine/blood ratio **93**, 127

Urine/blood ratio; Alcohol, Alcoholism, Biological markers, Blood, Drunk drivers, Forensic science, 5HTOL, Toxicology, Urine **93**, 127

Window; Criminalistics, Glass, Transfer **93**, 195

Windows; Criminalistics, Glass, Transfer **93**, 175

Windows; Criminalistics, Glass, Transfer **93**, 167

Windscreens; Criminalistics, Glass, Fragmentation **93**, 209
